

GEORGE EVANS

Trans Activist & Mental Health Speaker

George uses his lived experience as a trans man to educate and give the younger trans generation hope, whilst also supporting students and educators to generally be more inclusive.

His mission is to show that trans people can and do lead regular lives too. He also supports others in the LGBTQIA+ community and strives to be the voice for those that are too afraid to speak out. George's story is about living your life authentically, and above all, with hope.
