

# AIDEN WYNN

## Diversity & Inclusion Ambassador

Aiden transitioned in his final year at school. After difficult experiences coming out and struggles with his mental health, he now uses those negative past experiences to tackle stigmas, inspire self-acceptance, and encourage people to be proud of what makes them different.

His mission is to bring awareness to the LGBTQ+ community through sessions that are uplifting and insightful, and which teach young people the power of pride, inclusivity, and kindness.
