

CHARLIE BUTCHER

LGBTQ2+ Ambassador

Charlie bravely transitioned whilst he was in secondary school. Having been through his journey at a young age, he understands the complex relationship between LGBTQ2+ matters and mental health and wants to erase the stigma in the younger generations about people within the LGBTQ+ community.

Due to the diverse nature of these topics, Charlie's sessions are all bespoke and will include a personal insight into his own journey to allow teachers & students to build a rapport with him.
